

“Eternity” / M. Dukurs, E. Kalniņa

.
i'm on top of you
and you're on top of me
quiet whispers of love
that's where we'll be

wrapped together so sweet
so sweet and free
in the garden of passion
our ecstasy

**we will be together
forever wild and free
that's the promise I gave you
on the first day I met you**

**we will be together
forever wild and free
in the dance of time
our love's eternity**

..
just don't let me down
i was hurt too many times
but I finally found you
and together we will be
