

Faiiem.lv ensures fast and convenient possibility of storing, publishing and exchanging files on the Internet. The files to be stored can be accessed after authorization from any computer or phone as well as can be easily shared between other users after sending unique link to the e-mail, in social networks or as any other message.

To place files in the storage of Faiiem.lv, the user shall choose files on the local computer or phone with several clicks, copy them to the server and receive a unique link to all files or every file individually.

The files copied shall not be obligatorily published - they can be stored in your account for the needs of personal access or as a backup copy. Every individual upload or file set can be protected with additional password. Registered users can have 1000 MB of individual disc space with the possibility of increasing the space in the case of need. You can pay for available disc space with PayPal or credit card. In its turn the files of unregistered users shall be deleted within 60 days after copying. Registered users can manage the uploads performed, correct their descriptions and delete thereof. On uploading, the description texts entered shall be sent to the recipient's e-mail address and displayed during file preview. It allows preparing personalised informative page for publishing quickly.

The most popular usage:

- Secure file and photograph storage
- Sending photographs to your friends or fellow travellers
- publishing and popularizing your compositions
- publishing and popularizing video files
- It can be alternative to FTP servers to exchange large files, for example, design or video materials.
- Storage of file backups

The types of files to be copied are unlimited - you can keep documents, photographs, video and audio files or any other types of files. Moreover, at a time you can simultaneously choose and copy several files. The maximum size of one upload is 2000 MB. It allows using Faiiem.lv as a convenient alternative to FTP servers to exchange and send files to customers.
